- You and/or your spouse are self-employed
- You are not covered by your employer's or your spouse's employer's health plan
- You are in between jobs
- You are confused about your health care options

If Yes, you may want to consider TPG Individual Health Insurance Consulting Services

When reviewing your options it pays to obtain and compare offers from multiple insurance carriers. Choosing health insurance is a balancing act between cost and coverage and the choice is not as easy as it once was. Plans differ considerably both in cost and in ease of access to the services you need. Although there is no 'best' plan for everyone, there are some plans that may be a better fit for you and your family's health insurance needs.

TPG can help you navigate through the complicated maze of purchasing individual health insurance.

In order to obtain individual and/or family health insurance in Oregon, you are required to complete a medical questionnaire. Approval for coverage is not guaranteed.

Pre-Existing Conditions

Since pre-existing conditions may or may not be covered under an individual health plan, TPG can advise you on how your unique set of circumstances may affect your ability to obtain coverage.

Oregon Medical Insurance Pool

Oregon has an established a high risk pool called Oregon Medical Insurance Pool (OMIP) which is available to individuals who have either been denied coverage or who have exhausted their COBRA continuation rights. TPG can guide you through the application steps for OMIP.
